CLI Accepting Applications for Leadership Cape Cod Class of 2009

CLI's mission is to foster a better Cape Cod by educating community leaders about the issues and resources that define the region. Participants have included local and state politicians, business leaders, entrepreneurs, health care professionals and members of the media.

Leadership Cape Cod is a "tremendous program" says Jay Higgins, Senior Project Manager for Cape Cod Healthcare and a member of the CLI Class of 2007. "I pick up the Cape Cod Times and read about CLI classmates and their accomplishments all the time. I feel more connected to life on Cape Cod – more than ever before. CLI brought me invaluable information and relationships."

Leadership Cape Cod features 10 sessions from January to June covering a wide range of topics: social services, healthcare, education, business, government, diversity, the law, the environment, the media and the arts. Participants also are required to complete a community service project with classmates during the semester. A graduation ceremony is held in June.

Established on Cape Cod in 1992, the Community Leadership Institute has 403 alumni on Cape Cod and the Islands. CLI is a member of the national Community Leadership Institute Association based in Athens, Georgia.

For more information, visit the web site or call the Community Leadership Institute of Cape Cod at 508-362-2131 ext. 4483.
